

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Atlas Global Equity Income Fund (the "Fund"),

a fund within Atlas Investment Funds
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

B Income (ISIN: GB00BDRNX694)

Objective and Investment Policy

Objective

To provide income and capital growth, prioritising income, over a minimum of five years, after all costs and charges have been taken. Capital invested is at risk and there is no guarantee the objective will be achieved over any time period.

Investment Policy

To invest, directly and/or indirectly, at least 80% of its assets globally (including emerging markets) in equities. The Fund may invest up to 10% of the assets in Collective Investment Schemes (which may include those managed or operated by the ACD, or the Investment Manager, or their associates), ensuring that global equities and such schemes collectively account for at least 80% of the Fund's assets.

The Fund may invest up to 20% of the assets in cash and cash equivalents. The Fund will invest across different geographic regions, industry sectors and market capitalisations without limitation.

Other features of the Fund:

The Fund is actively managed, with the Investment Manager independently selecting equities to buy or sell and determining the timing of these transactions.

The Fund can invest in other funds (including those managed by the Manager, the Investment Manager and its associates).

You can buy and sell shares in the Fund on each business day.

The Fund aims to distribute available income quarterly. The level of income is not guaranteed and may fluctuate.

The Fund may use derivatives to reduce risk or cost or to generate additional capital or income at proportionate risk (known as "Efficient Portfolio Management"). It is intended that the use of derivatives will be limited.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns have varied. It is a measure of the Fund's volatility.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 5 because its volatility has been measured as above average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free.

The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- Currency Risk: As the Fund invests in overseas securities, movements in exchange rates, when not hedged, cause the value of your investments to increase or decrease. Currency hedging, where applied, may not fully eliminate this risk and mismatches can occur.
- Counterparty Risk: The failure of a firm involved in a transaction with the

Fund or providing services to the Fund may expose the Fund to financial loss.

- Emerging Markets Risk: The Fund may invest in emerging markets, which are markets in developing countries. These markets may be more volatile than developed markets and may have less well-developed regulatory systems and disclosure standards. Emerging markets may have more political and economic risks that may result in large and frequent price movements. There is also a higher risk of liquidity issues or counterparty defaults, which could cause a loss to the Fund.
- Liquidity Risk: The Fund may invest in assets such as corporate bonds or shares in smaller companies, that could become difficult to buy or sell in adverse market conditions. This may delay or restrict the Fund's ability to meet redemption requests and could negatively affect the Fund's value.
- Derivative Risk: The Fund may use derivatives, which can be complex instruments. A derivative may not perform as expected and can create losses greater than its initial cost. A relatively small movement in value of the underlying investment may have a much larger impact, positive or negative, on the value of the Fund than if the Fund held the underlying investment directly.
- Concentration Risk: The Fund intentionally holds a relatively small number of investments and may also invest in securities within a particular industry, sector or geographical focus. This means that the performance of a single investment, industry, sector or region may have a greater impact on the Fund's value. The value of the Fund may therefore be subject to large swings (both up and down) compared to a more diversified portfolio.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.	
Charges taken from the Fund over the year	
Ongoing Charges	0.86%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The ongoing charges figure is based on expenses as at 20 November 2025. This figure may vary from year to year.

It excludes payments related to interest on borrowing and portfolio transaction costs, except in the case of transaction fees payable to the custodian.

Ongoing charges are deducted from capital which will assist the income yield but may constrain capital growth.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Fund's Prospectus, available at www.waystone.com.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart is net of tax and charges but excludes any entry or exit charges that may apply.

The Fund was launched on 14 May 2018. This share class was launched on 14 May 2018.

Past performance is calculated in GBP.

The Fund was renamed in 20 November 2025 and was previously known as the Ocean Equity Fund. The Fund changed its investment objective and policy on 20 November 2025 and therefore past performance before that date was achieved under circumstances which no longer apply.

*Benchmark: Cboe UK All Companies.
